Every contract, deed or conveyance which may be hereafter executed with regard to any of the property in the **SUBDIVISION** shall be conclusively deemed to have been executed, delivered and accepted subject to the following *Restrictions*, even if the *Restrictions* are not set out in full and are not incorporated by reference in such contracts of sale, deed, lease, or other transfer of interest in any such **PARCEL**.

The provisions of this Article are broad and sweeping and an extremely wide range of activities are regulated hereby. Owners are advised to review this Article and guidelines carefully to ensure that they comply with all of the requirements before commencing any work or engaging in any activity on or in connection with their LOT or IMPROVEMENT to ensure they comply with all of the provisions set forth herein and in the guidelines. Work commenced, performed, or completed without prior approval as required herein, in the guidelines, or otherwise in violation of the terms of this Declaration, the guidelines, or applicable law may subject the OWNER of the LOT to substantial costs, expenses, fees, and penalties, which may be in addition to a requirement that the LOT and/or IMPROVEMENT be restored to its original condition.

1. Architectural Control Committee Approval Required

No buildings, hardscape, additions, modifications or IMPROVEMENTS may be erected, placed or performed on any LOT until the construction plans and specifications including, but not limited to, the site plan, design development plan, exterior plan and landscaping plan have been submitted both in electronic and hard-copy format and approved in writing by the COMMITTEE as hereinafter provided. The COMMITTEE is hereby vested with the right, but not the obligation, to refuse to review a request for an improvement or modification, or to deny such a request, if the OWNER requesting same is not a Member in Good Standing. Builders may submit their design plans as master design plans, which plans must include all specifications, including specifications as to brick color and paint color that may be used when building each design. The COMMITTEE or the BOARD may, at their sole discretion, retain and/or delegate review of plans and specifications to a designated AIA architect or other such person or firm as may be designated by the BOARD, experienced or qualified to review same, who may then render an opinion to the COMMITTEE or BOARD. Approval of plans and specifications shall not cover or include approval for any other purpose and specifically, but without limitation, shall not be construed as any representation as to or responsibility for the structural design or engineering of the IMPROVEMENT or the ultimate construction thereof. In the event the COMMITTEE fails to approve such plans and specifications within thirty (30) days after the receipt thereof, they shall be deemed to be approved.

The BOARD and/or the COMMITTEE shall have the authority hereunder to require any OWNER or OWNER's agents or contractors to cease and desist in constructing or altering any Improvements on any LOT, where such actions have not first been reviewed and approved, constitute a violation of the Declaration, the guidelines or any other documents promulgated by the BOARD and/or the COMMITTEE. The violating OWNER shall remove such violating IMPROVEMENTS or sitework at its sole expense and without delay, returning same to its original condition or bringing the LOT and/or IMPROVEMENT into compliance with the Declaration, COMMITTEE documents and any plans and specifications approved by the COMMITTEE for construction on that LOT. If an OWNER proceeds with construction that is not approved by the COMMITTEE, or that is a variance of the approved plans, the ASSOCIATION may assess fines as provided for herein, and may continue to assess such fines until COMMITTEE approval is granted or the violation is removed. This Declaration is notice of such liability for violation and Owners hereby agree to bear the cost and expense to cure any violations according to this provision, regardless of the substantial cost, time or loss of business involved. Each OWNER acknowledges that it may not always be possible to identify objectionable features of proposed construction or alteration of improvements until such construction and/or alteration is completed, in which case it may be unreasonable to require changes to the IMPROVEMENTS involved; however, the COMMITTEE may refuse to approve similar proposals in the future.

Written notice may be delivered to the OWNER, or any agent or contractor with apparent authority to accept same, and such notice shall be binding on OWNER as if actually delivered to OWNER.

The COMMITTEE or its agents or assigns shall have the right, but not the obligation, to enter any LOT or Homesite to determine if violations of this Declaration, the Guidelines, or any other documents promulgated by the COMMITTEE exist. In so doing, the COMMITTEE shall not be subject to any liability for trespass, other tort or damages in connection with or arising from such entry nor in any way shall the ASSOCIATION or its agent be liable for any accounting or other claim for such action.

The COMMITTEE shall have the right to set reasonable time constraints for both the commencement and completion of construction, which constraints shall be no less than ninety (90) days to commence construction and eighteen (18) months to complete construction. If construction fails to start before the designated commencement date or is not completed before the designated completion date the plans shall be deemed not approved. Plan approval shall be effective for twelve (12) months after issued by the COMMITTEE. If no construction has been commenced within the twelve (12) month period after COMMITTEE approval, the plan approval shall expire, and plans must be re-submitted prior to commencement of construction.
